Message from the Editorial Commitee

Dear Fellow Members;

One of the tasks of the Ethiopian Association of Civil Engineers (EACE) is the continual publication of newsletters, bulletins and journals on a regular basis and contributes to the development of the Civil Engineering profession.

The Association has strived to continue this task and managed to publish a bulletin and journal for three conscutive years through the concerted efforts of the Executive committee and its Office manager.

We highly appreciate and once again extend our gratitude to the article contributors, reviewers and sponsors who have made this publication possible.

Lastly, we call upon all fellow members of the association to actively and continuously participate in the contribution of articles and research papers to the enhancement of the profession and the continuance of these publications on a regular basis.

Eng. Ameyu Temesgen

Chairman, EACE Editorial Committee

Acknowledgement

The Editorial Committee is highly indebted to the following members for their contribution by reviewing and forwarding constructive comments on the articles produced by different professionals,

Eng.Raeed Ali

Dr. Henok Fikre

Eng. Ephrem G/egziabher

Eng. Ameyu Temesgen

Eng. Samson Walelign

ETHIOPIAN ASSOCIATION OF CIVIL ENGINEERS-(EACE)

CODE OF PROFESSIONAL ETHICS

FUNDAMENTAL PRINCIPLES

Engineers uphold and advance the integrity, honor and dignity of the Engineering Profession by:

1. Using their knowledge and skill for the enhancement of human welfare and the environment;
2. Being honest and impartial and serving with fidelity the public, their employers and clients;
3. Striving to increase the competence and prestige of the Engineering Profession; and
4. Supporting the Professionals and technical Societies of their disciplines.

FUNDAMENTAL CANONS

CANON I: Engineers shall hold paramount the safety, health and welfare of the public and shall strive to comply with the principles of sustainable development in the performance of their professional duties.

CANON II: Engineers shall perform services only in areas of their competence.

CANON III: Engineers shall issue public statements only in an objective and truthful manner.

CANON IV: Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.

CANON V: Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.

CANON VI: Engineers shall act in such a manner as to uphold and enhance the honor, integrity, and dignity the engineering profession.

CANON VII: Engineers shall continue their professional development throughout their careers, and shall provide opportunities for the professional development of those engineers under their supervision.
